A telephone interview with Examiner William C Vesperman and Applicant's representative, David R. Cochran, was conducted on 15 April 2004 regarding the status of the pending claims. In particular, amendments to the independent claims accompanying a Request for Continued Examination filed 2 March 2004 were discussed. An agreement was reached regarding the language of these independent claims to expedite the allowance of these claims. On 15 April 2004, Applicant faxed proposed amendments to the instant claims, along the lines discussed in this interview. Applicant believes that the Supplemental Response shown in the Patent Application Information Retrieval (PAIR) of the United States Patent and Trademark Office as filed on 15 April 2004 is the proposed amendments faxed 15 April 2004. Provided with this interview summary is a copy of the proposed amendments, which Applicant submits is the basis for the notice of allowance of the instant claims mailed 20 April 2004.
